SUMMARY

Full-stack developer building production-grade, multi-role systems with secure authentication, regulatory compliance enforcement, and scalable backend design. Currently a 2nd-year CS & AI student at Newton School of Technology, Rishihood University — actively shipping real, deployed projects beyond coursework.

PROJECTS

- MedMarket India** | *React, Node.js, PostgreSQL, Prisma ORM, JWT, Express.js* | GitHub Demo Feb 2026
- Built a three-portal marketplace (consumer, pharmacy owner, compliance admin) on a single backend, serving India's OTC medicine supply chain with role-validated JWT auth and cross-role session protection.
 - Enforced DPCO pricing law at the data layer — selling price hard-capped against MRP, making above-MRP violations structurally impossible rather than relying on application logic.
 - Designed a per-batch inventory system keyed on `inventoryId` with 60-day, 30-day, and past-expiry alert windows for drug safety.
 - Implemented a 5-point admin compliance checklist (Drug Licence, GST, Aadhaar, FSSAI, store photos) that blocks pharmacy approval until every criterion is manually verified.
- SignalStack** | *React, Node.js, PostgreSQL, Prisma ORM, Express.js* | GitHub Demo Nov 2025
- Built a team collaboration platform that captures and structures decisions from conversations — letting teams explicitly mark messages as decisions, track their lifecycle, and surface ownership and accountability insights.
 - Implemented team-based workspaces with role-scoped permissions (Member, Lead) and an invite-based onboarding flow gated by lead approval.
 - Engineered immutable decision history with lead-only superseding, channel-based persistent messaging, and team-scoped analytics for activity and accountability.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL, NoSQL, HTML, CSS
Frontend: React, Next.js, Tailwind CSS, Figma
Backend: Node.js, Express.js, Prisma ORM, REST, OAuth 2.0, JWT, Event-Driven Architecture
Databases: PostgreSQL, MySQL, MongoDB
AI / ML: LangChain, LangGraph, OpenAI API, GenAI, LLMs, Machine Learning
Data & Tooling: NumPy, Pandas, Matplotlib, Tableau, Excel, Virtualization
Other: Git & GitHub, Unit Testing

EDUCATION

Newton School of Technology, Rishihood University	2024 – 2028
<i>B.Tech, Artificial Intelligence</i>	<i>CGPA: 9.2 / 10.0</i>
Shanti Vidya Mandir	2023 – 2024
<i>Class XII</i>	<i>80.0%</i>
Delhi Public School	2022 – 2023
<i>Class X</i>	<i>93.0%</i>

ACHIEVEMENTS & ACTIVITIES

1000+ Codeforces rating through consistent competitive programming practice; **ICPC 2024** participant.
Represented Punjab in **5 national inline hockey skating championships** — a record of discipline, sustained commitment, and performance under pressure.
